u64 S3 root-solve batching run report (2026-10-15)
See research/u64_root_batch_20261015/README.md.
Key result: n=41 whole-process median 76.4 s -> 23.4 s (3.26x; 1.87x min-to-min),
identical recovered scalars, relations and probe counts on every rep (3/3).
