Observed frontier: exact target, configuration, session and seeds
R0: reviewed input/output lock
Pinned producer + Rust + dependencies
Exact report bytes; no solver execution
Sealed historical sessions
F4 · F5 · F6-IC · roots · SAT · rho
File hashes + raw seals + plan
Bound historical native arithmetic audit
One exact public target
Same session, rounds and seeds
Missing / failed / interrupted
Visible; never a win
Count sensitivity at 0 / 0.1 / 1
Memory tradeoffs; retain unknowns
Cold + online + phase clocks
Timing verdict only after L2 + 5 pairs
and A/A + paired 95% interval
Freeze incumbent + challenger
Fresh holdouts + independent replay
External reference + full-operation cost
