ECDLP speedups across approaches — run report (2026-10-15)
See research/ecdlp_speedups_20261015/README.md for the full report.
Key results: Koblitz orbit fast path n=41 whole-process median 60.9 s -> 37.5 s (1.63x);
j=0 relation stage 16-bit median 13.99 s -> 11.90 s (1.17x). Identical outputs, both arms.
